

REDESIGNED FOR
2013

For the past 10 years Viper Archery Products has been producing the best sights that money can buy, right here in the U.S.A. Our products are and always have been designed, machined and assembled in South Point, Ohio.

This year the tradition continues with the introduction of the "Venom Series". This series of sights are ultra-lightweight and offer a modern sleek look. The new Micro Click knobs make precise adjustments easier than ever before. The Venom Series sights are our best to date and we're proud to give them the Viper name.

We would like to thank each of you that have chosen the Viper brand to take with you into the woods or into the field of competition. Your dedication, loyalty and success are what motivate us to keep pushing and refining our products.

Thank You,

Rick Clark
President

LIMITED LIFETIME WARRANTY

Viper Archery Products warrants, for the lifetime of the original purchaser, that it will adjust, repair or replace any product manufactured by it to the extent that such product is found to contain any defect in material and workmanship. This warranty shall not apply in any case of loss, self-repair or damage due to misuse, abuse, failure to perform normal maintenance or deterioration in the cosmetic appearance and/or finish of the products, including, but not limited to anodizing or camouflage finishes. Fiber optic is not covered by this warranty. Please Note: Glass lenses are inspected upon leaving the factory and are not covered by this or any warranty. This warranty does not have transportation. To exercise the warranty rights herein provided, defective products must be: (1.) Shipped pre-paid with a valid return authorization number, issued by Viper Archery Products, to Viper Archery Products; (2.) Have attached the name, address and telephone number of the owner; (3.) Contain a description of the defect; and (4.) Be accompanied by an original receipt evidencing proof of purchase. With respect to all products sold by Viper Archery Products but not manufactured by Viper Archery Products, the original manufacturer's warranty, if any, shall apply. To the extent permitted by applicable law, the sole and exclusive remedy under this warranty is limited to repair or replacement as specified above.

RETURN POLICY

Returns are subject to a 20% restocking fee and must be accompanied by a valid return authorization number issued by Viper Archery Products.
