- · Adjustable rear/fiber optic front sight
- · Ambidextrous, all-weather stock
- · Minimal cocking force

CO₂ Power

Set them up, then shoot them down as fast as you can. In the airgun world, there's no better thrill than speed shooting. The RepeatAir® 1077 is the semi-automatic air rifle of choice for youth shooting instructors and anyone who wants to hone their speed shooting skills.

The New 760 Pumpmaster

Chances are the 760 Pumpmaster was your first gun, and it might have been your dad's first gun, and your grandfather's. It's hard to improve on this tried and true favorite, but that doesn't stop the Crosman design team from trying. This year they've strengthened the stock, and improved both the pellet loading and BB loading ports. It's still made right here in Bloomfield, NY, and the price has hardly budged since its introduction in 1966.

Variable Pump BB/Pellet Rifle

• NEW! stock design

• **NEW!** Smooth trigger pull

• NEW! Large reservoir capacity, holds 1,000 BBs

Lever Action

The Crosman Cowboy is styled for those who appreciate the nostalgia of old-west cowboy action shooters. This BB rifle is both lightweight and dependable, making it the right choice for developing lifelong shooting, marksmanship skills, and for teaching safety.

Fitting the demands of shooters at any skill level, the ratcheted lever remains in position until it's fully cocked, protecting fingers from snapback.

Challenger® Competition Rifle

The Challenger is the preferred sporter class air rifle for competitive air rifle programs throughout the country, including Marine Corps JROTC, Army JROTC, Air Force JROTC, Navy JROTC, American Legion, and 4-H.

POWERED BY HELICOIL IM

HeliCoil™ is the engine behind Ravin Crossbows. This revolutionary technology has several industry-changing advantages that all work together to create the most accurate crossbow ever designed. HeliCoil™ Technology coils cables away from both the top and bottom of the cams in helical grooves, keeping the cams perfectly balanced. This allows the cams to rotate an incredible 340 degrees, while both cams remain perfectly level when drawing and shooting the crossbow. This revolutionary design creates an incredibly compact crossbow packed full of innovative features that produce rifle-like downrange accuracy.

COIL CAMS

HeliCoil™ cables coil away from both the top and bottom of the cams in helical grooves keeping the cams perfectly balanced, for increased speed and downrange accuracy.

LEVEL CAMS

HeliCoil™ Technology keeps both cams perfectly level when drawing and shooting the crossbow. This allows the arrow to free-float above the rail, eliminating friction, giving you increased speed and downrange accuracy.

340[.] CAMS

HeliCoil™ Technology allows the cams to rotate 340 degrees. This creates the most compact, efficient and accurate crossbow ever!

VERSA-DRAW™ COCKING SYSTEM

One of the revolutionary design advantages provided by HeliCoil™ Technology is the Versa-Draw™ Cocking System. Working in conjunction with the Trac-Trigger™ Firing System this ultra-compact, fully-integrated cocking mechanism is built into the sleek stock design. Featuring a minimal 12 pound draw force, the Versa-Draw™ Cocking System is ambidextrous and has the ability to easily cock and un-cock your Ravin Crossbow. This unique HeliCoil™ advantage provides an easy-to-use, fully-integrated cocking mechanism delivering unmatched downrange accuracy with every shot.

TRAC-TRIGGER™ FIRING SYSTEM

This patented built-in trigger mechanism slides forward on the rail and clasps directly to the precise center of the string every time the bow is drawn, allowing for straight-line nock travel. This unique HeliCoil ™ advantage creates a perfectly balanced draw for unmatched downrange accuracy with every shot.

FRICTIONLESS™ FLIGHT SYSTEM

HeliCoil™ Technology allows the arrow and string to free-float above the rail, eliminating friction for consistent accuracy and increased string and cable life.

- · Soft, quiet inner lining
- Heavy-duty handles

NEW!

R26/R29 HARD CASE

The Ravin Hard Case is designed to protect your Ravin Crossbow from damage due to travel and use in the field. This compact hard-shell case can store a fully-assembled Ravin Crossbow with mounted scope, quiver and arrows attached. There is also ample room to store extra arrows, rangefinder, binoculars, etc.

- · Reinforced Polymer
- · Waterproof/Sealed
- · Manual Air Valve
- · Cam-over latches
- Fits fully-assembled Ravin
- · Pre-cut soft foam insert to

keep your Ravin secure

ITEM R182 RAVIN R9/10/15/20 HARD CASE

The Ravin Hard Case is designed to protect your Ravin Crossbow from damage due to travel and use in the field. This compact hard-shell case can store a fully-assembled Ravin Crossbow with mounted scope, quiver and arrows attached. There is also ample room to store extra arrows, rangefinder, binoculars, etc.

- · Reinforced Polymer
- Waterproof/Sealed
- Manual Air Valve
- Cam-over latches
- · Fits fully-assembled Ravin
- · Pre-cut soft foam insert to

keep your Ravin secure

NEW! ITEM R261 **BACKPACK SLING**

Experience maximum comfort with the design of Ravin's backpack-style crossbow sling. It creates less shoulder fatigue. Made of non-slip neoprene. Straps adjust for custom fit.

ITEM R260 SHOULDER SLING

- Adjustable 2.5" wide, padded neoprene design
- Soft, durable no-slip backing
- Quick-detach swivels for easy sling removal
- Built-in thumb loop designed for carrying comfort

· Water-resistant for inclement weather

ITEM R200 3-ARROW QUIVER/MOUNTING BRACKET

A unique new mounting system allowing for vertical positioning and optimized balance. It securely holds mechanical or fixed-blade broadheads. The quick-detach base allows for fast and easy installation and removal. The mounting bracket is used to store the Ravin quiver and draw handle.

ITEM R171 **IRON SIGHT ADAPTER**

- Machined aluminum
- · Mounts to Picatinny rail
- Used to add an iron sight *Does not include iron sights

ITEM R140 **RAVIN PRESS**

- · Durable aluminum construction
- Use with hand or 1/2" tool

Mounts on either side of the stock for left or right-handed use.

*Note: Use only Ravin-branded draw handle

ITEM R170 **RAVIN SCOPE**

- 20-100 yard range
- FPS adjustment
- Red & green illumination

- · Shock and recoil-proof
- Fully-coated lenses

SCOPE RINGS

Mounting to a Picatinny rail, the standard medium profile rings are a perfect match for any Ravin Crossbow and provide easy visibility. Made from aircraft-grade 6061-T6 aluminum for optimum strength.

RAVIN SCOPE ITEM R176 SNIPER SCOPE ITEM R175

REPLACEMENT SCOPE CAPS

Set of 2 (front and back)

- High-impact plastic construction
- Spring-loaded
- For standard Ravin scope only

REPLACEMENT TURRET CAPS

- 2 Caps
- Machined Aluminum
- Fits both windage & elevation turrets

SNIPER PACKAGE

RAVIN SNIPER SCOPE

- 1-8 x 24 Zoom
- 10 illumination levels
- Red & green illumination
- Fog-resistant and waterproof
- · Shock and recoil-proof
- Fully-coated lenses

ITEM R174

JACK PLATE ADJUSTABLE **ELEVATION MOUNT**

The Jack Plate is an elevation scope mount designed to shoot 20 to 200 yards with 250 (M. O. A.) minutes on an angle adjustment.

ITEM R172 RISER LEVEL

Ensure that your Ravin is perfectly level for precise, long-range shooting. Mounts quickly and easily to the riser archway for clear viewing

- · Mounts to riser archway
- Ensures precise long-range shooting

Crossbow Accessories

4x32 mm Crossbow Scope• Durable etched glass reticle, aim points

- Red/Green illumination with various brightness settings
- One-piece tube construction
- Fogproof, water and shock-resistant
- · Includes lens covers and picatinny rings

Model LC432ERG2

Padded Crossbow Bag

- Fits most crossbows Dimensions: 36" case length x 28" bow width
- · Adjustable and detachable shoulder sling
- Durable, heavy duty #10 zippers
- Carry handle for convenience
- Heavy duty 100% poly 600D outer shell
- Accessory pocket and arrow compartment

Model AXCSBG

Bowfishing

Typhon™

Compound Bowfishing Package

- Draw weight adjusts from 15-55 lbs.
- · Rubber finger rollers for shooting comfort
- 33" fiberglass arrow with quick release barb tip
- Easy casting spincast reel
- · Cajun ACS slide system
- · Whisker Biscuit® Arrow Rest
- 100 lb. Test Dynema Line
- · Aluminum Reel Seat
- · Badlands H2O camo pattern

Model AVCT40KT

Youth Bows

Sentinel™

Recurve Bow

- Draw weight up to 20 lbs.
- Draw length up to 26"
- 8 in. brace height
- 45 in. tip to tip
- Two 26 in. fiberglass arrows
- · Two-piece quiver
- · Adjustable pin sight

Model ABY215

KIT INCLUDES:

Bow, Two Arrows, Pin Sight, Armguard, Finger Tab and Quiver

Elkhorn™

Compound Bow

- · Draw weight up to 15 lbs.
- Draw length up to 26"
- · 8 in. brace height
- 33 in. tip to tip
- 65% let-off for ease of draw and steady aiming
- Two 26 in. fiberglass arrows
- · Two-piece quiver
- Adjustable pin sight

Model ABY1721

KIT INCLUDES:

Bow, Two Arrows, Pin Sight, Armguard, Finger Tab and Quiver

26" Fiberglass Arrows

- Durable fiberglass construction
- · Green and yellow fletching
- · Nocks and points installed

Model AY3PKA

SPECTRUM FIRST FOCAL PLANE

Return any time, for any reason, no questions asked

ADVANTAGES OF FIRST FOCAL PLANE RETICLES

- · Holds aim points constant at all magnifications
- No shift in point of impact during zoom
- Greater accuracy of range estimation

LONG RANGE MODELS

Features side parallax adjustment for optimal image focus and parallax removal.

FEATURES

- Etched glass first focal plane reticle—reticle magnifies as the image magnifies, ensuring reticle subtensions stay the same regardless of the power setting.
- 1", one piece aircraft grade aluminum construction
- Fully, multi coated lenses delivers maximum brightness and edge to edge clarity
- Side parallax adjustment—from 25 yards to infinity
- · 100% Shockproof, fogproof, waterproof

3-9x40 mm Riflescope

LR394SFT2

Until now, riflescope with locking and resetting turrets have been priced out of reach for value-conscious shooters. With the Precision Lock Turret (PLT) series, CenterPoint optics is breaking the price barrier and bringing this exclusive feature

PLT riflescopes feature tactical-style turrets with a tool less

locking ring and resetting capabilities which make sighting

in and adjustments back to zero quick and easy. The design

allows users to "lock" in the zero for their predefined setting,

preventing a bump, drop or accidental move off zero.

to an accessible yet high quality line of scopes.

ECSETTICK.

LIGHTS & LASER SIGHTS

Lasers – the leading edge in deterrence

Nothing sends bad guys the message that they need to stop what they are doing immediately like the red or green dot from a LaserMax laser. Should a threat not heed this warning, you have the target focused accuracy available only from a laser sight at your finger tips.

LaserMax – unmatched quality

When your life depends on the reliability of your equipment, selection should be based on quality over price and style. When you choose a LaserMax laser or light, you choose a brand that stands behind every product that goes out its doors. That is why all LaserMax laser sighting and illumination systems are covered by an industry leading warranty period.

For complete details on the LaserMax warranty, visit lasermax.com.

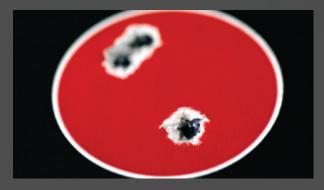

LaserMax 2019 Product Catalog

Your Advantage

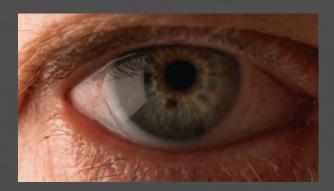

Transcends Language Barriers.

LaserMax lasers speak a universal language, an aggressor knows you do not intend on being a victim the moment they see the LaserMax dot.

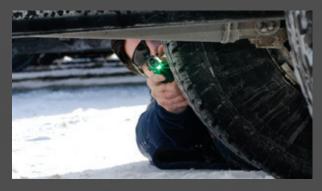

Train Faster, Be Safer.

Nothing increases shooting proficiency like a LaserMax laser sight. The instant feedback and ability to remain focused on target afforded by a laser allows the shooter to hone their fundamentals, a valuable tool for both live and dry fire.

Compensates for Diminishing Eyesight.

With age comes a decrease in the ability to focus on close objects, such as a front sight. LaserMax lasers allow for 100% target focused shooting, eliminating this problem.

Accuracy from Tough Positions.

If you are in the prone position or behind cover like a solid wall, tree, engine block of a car or ballistic shield, our lasers enable accurate shots, even when shooting stance is compromised.

LASER SIGHTS

Targeting perfected with the new GripSense™ activation by LaserMax. GripSense activation senses the users grip within the detection zone and activates the sight.

Additionally, choose how you want your light and laser to operate, either rapid instant GripSense activation, or controlled activation with the push of a button.

Lightning Laser with GripSense Activation

Rail Mounted Laser

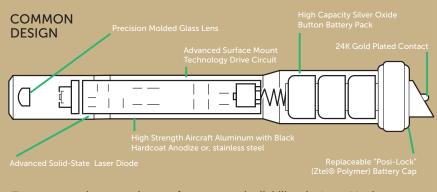

- DUAL activation capable with either GripSense or controlled push button
- · GripSense Technology does not alter your grip
- Rail Vise™ mounting technology for perfect placement
- · Easily programmable for steady or high-vis pulsed beam
- · External Battery access hatch with tool-less entry
- 10 minute automatic time-out prevents inadvertent battery drain
- · Water resistant design

GS-LTN-R		Fits Picatinny or Weaver Rails
GS-LTN-G		Fits Picatinny or Weaver Rails

The most technologically-advanced, hardened laser systems on the market, Guide Rod Lasers replace the recoil spring guide assembly in semi-auto pistols. For 30 years, these sights remain the sighting choice of top professionals around the world, and for good reason. No other laser system even approaches the survivability of Guide Rod Lasers for use in extreme environments.

To ensure maximum product performance and reliability, the LaserMax® Guide Rod Laser™ is manufactured using only the most premium raw materials.

The Guide Rod Laser has been subjected to more strenuous testing than any other laser sighting system on the market.

Frozen in ice, roasted in flames, crushed with heavy machinery, submerged to depths of 66-feet, shot to 20,000 rounds and dropped from five-story heights, the Guide Rod Laser meets and exceeds both NIJ and MIL-SPEC standards for issue firearms.

No laser sight in the world gets subjected to more rigorous testing.

Guide Rod Lasers

Perfecting the pocket pistol

Designed specifically for use on small handguns that lack an accessory rail, CenterFire Lasers emit a bright aiming point from right under the bore to ensure maximum accuracy. Pistol selection is based on form as well as function, each CenterFire sports a minimalist design that complements the firearm's aesthetics. Rounded and blended to ensure a smooth draw, CenterFire lasers mount to the pistol frame without permanent alteration and offer ambidextrous switching to accommodate both right and left-handed shooters. Most operators report immediate improvement to hit ratios after installing a CenterFire laser sight.

Modern defensive pistols continue to shrink in size. This is great news for shooters with small hands and those looking to conceal on smaller frames. BUT, the smaller the gun, the shorter the sight radius and the more challenging it is to shoot accurately. Enter the CenterFire laser sight.

LaserMax Precision Laser Modules

Solutions for Industrial, Scientific and Research applications

LaserMax is a world-class manufacturer of precision miniature diode laser (MDL) systems that are and have been trusted by the designers of advanced scientific, medical, and metrology equipment for use in demanding aerospace, industrial, scientific, medical, research and security applications. Whether used to align optical elements in telescopes, to support imaging in medical diagnostics, to measure polluting particulate matter in water, to create templates for custom auto parts or in orbital applications, LaserMax MDL systems have a proven history of starting on-spec. and staying on-spec. year after year in the harshest environments on earth - and beyond.

LaserMax MDL products are designed and assembled in-house and are supported by our in-house customer service and engineering teams. We can offer MDL products that not only meet our exacting specifications but that also meet your exact ones. Why work around a "standard" laser when you can have one that gives you exactly what you want, where you want, and how you want it?

As a supplier, LaserMax is constantly being evaluated by our customers. We receive the best ratings for on-time deliveries and for product quality and value. In letters, customers tell us that our diode laser modules are the most reliable they have seen in the industry and that the consistency and reliability LaserMax MDL systems have helped their businesses to grow.

LaserMax is committed to bringing this standard to the next generation of mission critical applications and products.

LaserMax MDL systems – let's grow together.
