

phoenix

C.V. Edition by Spiderbows
„PHOENIX LIMBS“

With this letter, the Spiderbows brand confirms that the limbs of the Phoenix model are made with a bamboo wood core.

The limbs mentioned therefore expressly comply with all relevant competition and sports regulations in which a wooden core in the limb is required for use in competition.

No materials are used that contradict or circumvent the specifications for wooden core limbs. The limbs are therefore fully compliant with the rules and certified for use in the relevant competition classes.

Confirmed by Team Spiderbows
and the managing director
